Feedback on your experience

Let us know a bit about how you're finding the job hunt and the bootcamp

What search engines, sites, and approaches are working best for you in locating jobs to apply to? \*

[Linkedin](#) and [Otta](#) for the user interface and they seem to have a wide range of jobs. [Otta](#) is great because the website allows the user to search based on company size.

Do you have any concerns you'd like to share with us? \*

I don't like how I am doubling up with providing the job recruiter information etc in both the job/interview tracker and for this online form. Would it be possible to change it for further submissions where the user only needs to provide a link to their job/interview tracker?

Thank you for your submission of BYB 3.

- If you forgot to take screenshots of the form with your data in it, please type your data out to submit it.
